*Finding Savings in the
Most **Unexpected** Places*

AVOID unnecessary late charges on your utility bills

The average hospital pays over \$15,000 in monthly late fees. That adds up to a big chunk of your yearly budget. These fees are “hidden” in utility bills and are easily overlooked. VIE Healthcare’s Opti-Bill Program will help your organization manage unnecessary fees and avoid monthly late charges.

VIE’s Opti-Bill Program:

- Communicates with utility companies to avoid late payment charges on your accounts.
- Ensures the accuracy of monthly utility bills.
- Notifies your accounting office of the invoice number, charges and due date BEFORE you receive your monthly utility bill.
- Reviews all past late fees for discrepancies and applies for credits.
- Monitors all utilities for late payment charges that are incorrectly assessed.
- Creates a win-win scenario between your organization and its utility providers.

By choosing VIE Healthcare’s Opti-Bill Program, your hospital could save \$180,000 annually in late fees.

revenue?

THEY CAN...

Lost revenue just got a whole lot easier to find with VIE's EXCITE! Program

We don't always know where the lost revenue is. Chances are you don't either. But your staff does. That's right, the people on the front lines doing the work day in and out. Not only do they know where it is, they usually know what to do about it. They don't bother to tell you though, because they think nobody cares about their ideas or opinions. Sadly, they are often right.

The truth is that your staff's ideas can save you \$100,000 and more, just for the asking. We're so sure of it, we guarantee it! Call us today and we'll tell you all about how our powerful EXCITE! Program will not only bring out the creativity in your staff, but create a culture that allows that process to continue long after we're gone.
